The Training Division of the CCF

SHORT COURSE

Install Trench Support

RIICCM210D Install trench support

Are you required to work around trenches and install trench support in a civil construction context?

COURSE OVERVIEW

Working in trenches is arguably one of the most dangerous tasks undertaken in the civil construction industry.

The primary function of any trench support method is to protect people from caving ground. The secondary function is to provide support to nearby structures and allow equipment access to the work.

You will learn about the effect of different soils and ground types, trenches, control of excavations (benching, battering, shoring) and safe removal of trench support.

COURSE OUTCOME

On completion of the course you will be able to:

- Plan and prepare for installing trench support
- Install trench shoring
- Remove trench shoring
- Conduct housekeeping activities

If successful you will receive a Statement of Attainment.

COURSE DURATION

This course is one day (8 hours)

DELIVERY AND ASSESSMENT

This course is delivered and assessed face to face.
