

CIVIL TRAIN

The Training Division of the CCF

SHORT COURSE

SAFETY SUPERVISOR

Are you working on a civil construction site where you are required to have a supervisory understanding and application of the WHS laws?

COURSE OVERVIEW

This course is designed for employees who are required to oversee/monitor the safety of workers on a work site.

This course uses case studies to take participants through the complexities of the WHS laws to identify and understand WHS obligations and responsibilities (duty of care), enabling employers and employees to develop the skills and knowledge to enable them to act as 'safety supervisors'.

COURSE OUTCOMES

On completion of the course you will be able to:

- Demonstrate an understanding of WHS issues
- Identify the legal requirements for employers and managers
- Establish representation in the workplace
- Explain the relationship between management system failures and the immediate causes of accidents
- Demonstrate how to identify hazards and assess risks in the workplace and identify means of controlling risks using the hierarchy of controls

Upon completion you will receive a Statement of Attendance and a plastic wallet card.

COURSE DURATION

This course is two days (16 hours).

DELIVERY AND ASSESSMENT

This course is delivered and assessed face to face.

LOCATION

Public courses are scheduled frequently at Civil Train SA offices in Thebarton.

Civil Train SA can come to your worksite to deliver Safety Supervisor training to a group of employees – please contact the office for a quote.
